John a daring vision of faith delivers a unique understanding of the good news Dr Doohan calls John's Gospel a challenging and refreshing foundational document for Christian faith because it calls to a deep mysticism and avoids the clutter of petty laws and power struggles so typical of inauthentic religion John's Gospel has always been characterized as coming from the fruits of reflection and deep prayer and it cannot be comprehended unless one enters into a deep mystical state the author aids the reader in entering this spiritual state required to truly know John's Gospel of Christ

surely christian history in germany principally followed the outlines of a catholic and protestant narrative right on the contrary for hesse hanau and fulda this dominant framework largely obscures the historical experience of most christians specifically rural christians the rural christian narrative animated for more than a millennium by agricultural and communal forces principally followed an indigenous path characterized by long term surges and setbacks this path eventually bifurcated not in the 1517 1648 period but rather in the wake of the 1648 peace of westphalia and it did so not into catholic and protestant storylines but rather into those christian corpora gemeinden which maintained their local civil sacred unity into the twentieth century and those which lost that unity after succumbing to westphalia s divisive effects

the life and legacy of one of mohammad s closest confidants and islam s patron saint ali ibn abi talib ali ibn abi talib is arguably the single most important spiritual and intellectual authority in islam after prophet mohammad through his teachings and leadership as fourth caliph ali nourished islam but muslims are divided on whether he was supposed to be mohammad s political successor and he continues to be a polarizing figure in islamic history hassan abbas provides a nuanced compelling portrait of this towering yet divisive figure and the origins of sectarian division within islam abbas reveals how after mohammad ali assumed the spiritual mantle of islam to spearhead the movement that the prophet had led while ali s teachings about wisdom justice and selflessness continue to be cherished by both shia and sunni muslims his pluralist ideas have been buried under sectarian agendas and power politics today abbas argues ali s legacy and message stands against that of isis al qaeda and taliban

one of the most intriguing questions since the time of plato concerns what defines skillful performance in terms of specific capabilities

knowledge competence and expertise as frederick taylor famously noted an answer to that question would enable us to know what to focus on and what to do to improve the performance of individuals groups and organizations although we have come to know a great deal about the properties of capabilities knowledge competence and expertise at large we know significantly less about how they are enacted in skillful performance thus how skillful performance draws on knowledge how skills develop and how competencies and capabilities are put to action are still eluding us process thinking has not sufficiently explored skillful performance this book aims to address this gap it brings together scholars from different backgrounds traditions and disciplines whose common perspective is distinctly process oriented they seek to rethink capabilities knowledge competence and expertise not as if these phenomena were already accomplished but on the contrary as processes in the making as performative accomplishments such rethinking opens up several new conversations and extends the range of inquiry about how capabilities knowledge competence and expertise are accomplished in practice and consequently how they may be improved
